

# Garland Fibre Accessories

Your trusted name in Copper  
is now your trusted name in **FIBRE.**

Garland has a complete set of fibre accessories to help you with your next optical fibre installation. The range includes

- Fibre Optic Break Out Trays (FOBOT's)
- Patch cords
- Pigtails
- Through adapters

Garlands FOBOT's are available in both fixed and slide out options, come in a modern powder coated black finish and are supplied with all ancillary components. Add Garland through adapters, pigtails and patch cords and you are ready to get connected to your fibre backbone.

Garland adapters, pigtails and patch cords come in all common connector types including LC, SC and ST and are matched to either OS2 single mode fibre or OM1, OM3 or OM4 multimode fibre.

Garland patch cords are available in individual zip locked bags and are stocked in a range of sizes from 1m to 10m and in all common fibre types and combinations. Custom lengths and combinations can be manufactured according to demand .

Garland has a competitive fibre offering that provides you with the quality and reputation that you have come to expect from a company with over 40 years' experience.

<sup>1</sup>Subject to minimum order quantity and lead time constraints
