

Garland 1RU 19", Modular 24 Port Fibre Panel

Part No: MT30903B

Description

The Garland 24 Port 19" rack mount FOBOT (Fibre Optic Breakout Terminal) provides an economical solution and accommodates 48 Fibres.

Features

- Rodent Proof (with MT309AK accessory)
- 48 Fibre Capacity
- Includes 2 x 24f Splice Cassettes with Combs
- Includes Cable Glands, Internal Cable Management, Fibre Tubing & Splice Protectors
- Includes Adapter Panels, with Screen Printed Numbers for SC/DLC, DSC/QLC, blanking plates and plugs
- Includes all Mounting Screws and Cage Nuts
- Adjustable Mounts

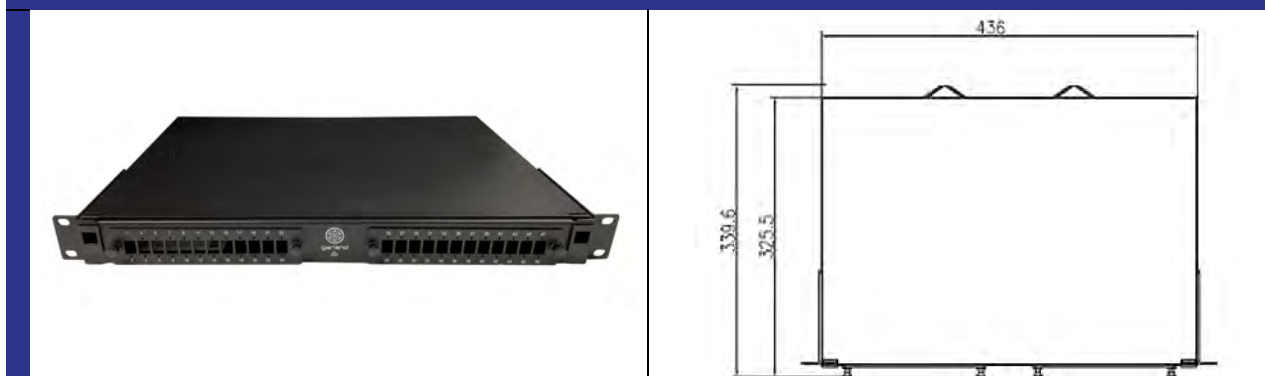

Overview

The FOBOT provides an economical solution for splicing and managing optical fibre cables and feature heavier gauge steel. Each FOBOT comes with a full installation kit including splice trays (for up to 48 fibres), splice protectors, protective sleeving, mounting screws, and modular adapters for SC and LC connectors in both simplex and duplex configurations. The modular adapter panels feature improved heavier duty retaining clips making them more secure in the FOBOT front panel. The sliding FOBOT includes a heavier gauge ball bearing slide with a greater number of bearing surfaces for a smoother action.

Cable entry is via the rear of the FOBOT drawer. Cable glands and strain relief posts retain the fibre. The 2 x 24f splice trays and splice combs manage and hold the splice protectors. Fibre managers maintain the correct bend radius and allow a smooth transition to the rear of the through adapters.

The FOBOT has four angled entry points all with a protective metal cover, each cover can be removed individually as required to allow access to that entry point.

Physical Characteristics

Dimensions	436mm (W) x 44mm (H) x 339.6mm (D)
Weight	4.6kg
Finish	Black (RAL9005) matte spray
Material	Cold rolled steel
Rack size	19 inch 1RU

Supply Information

Product No	Pack Type	Type	Colour
MT30903B	1RU 24/48 Fibre FOBOT	Sliding	Black

Optional Accessories

- Garland Pigtails (GPT)
- Garland Through adapters (GTA)
- Garland Patch Cords (GPC)
- Garland - set (2) of angled rear plates with metal knockouts (MT309AK)
